

UHDE HPP 055-60

thyssenkrupp

IDEAL PLANT FOR YOUR START UP

EFFICIENT DESIGN:

Uhde system enables the possibility of modular planning since process direction, an option for MAP packaging until the freedom of placing HP pumps where more comfortable.

Another option is an automatic drive for transport lines as well as frame adaptation on customer specifications. This is an ideal plant for startups, institutions or small production lots.

ADVANTAGES :

- Top Quality: Made in Germany
- Durable: High durability of wear components
- Redundant safety systems
- Remote assistance/ safety
- Intuitive and comfortable operation thanks to remote panel
- Design studied to ease maintenance
